Patent

Services offered by the Patent Division shall include, but not limited to :

- Prosecution of patent and utility models application at the Indonesian Patent Office (Filing, Substantive Examination until granted)
- Drafting Patent claims, specification and drawings.

Patent

Services offered by the Patent Division shall include, but not limited to :

- Translation of Patent documents to the Indonesian language as mandatorily required, either from English, or from other foreign language text such as German or Japanese to Indonesian in no-urgent basis.
- Attending to the annual maintenance / annuity fees payment of Indonesian patents.
- Recordation of the assignment or licensing of the rights at the Indonesian IP Office.

Patent

Services
include,

- Patent domestic
- Freedom-to-Operate Patentability
- Analysis) Drafting/Reviewing
- Licensing/Assignment Contract/Clauses. Patent Proceedings

offered by the Patent Division shall but not limited to :

Availability Search, based upon and multinational patent databases. (Legal Opinion on and/or Infringement

Patent

Litigation at Administrative as well as

Commercial, Civil and/or Criminal Court

Metallurgy & Green Technology

We have handled cases and are expert in, among others:

- Lithium ion batteries developments

• Lithium-ion batteries for the Synthesis of High surface Lithium Titanate anode material

- Inventions in cathode Ni based and the anode materials

• Utilizing biomass that is rice husk as source of carbon/graphene for batteries

- Smelting scandium oxide

• Methods for recovering valuable materials for lithium ion secondary batteries

- Doping of elements Si, Sn, Mg, and Fe on LTO and microstructural control
- Method for producing nickel powder

• LFP and NCM cathode performance analysis

- Addition of metal cation in NMC622

• Converting BBM motorcycles into electric motors with hub connections with NCM batteries

• Flash joule heating method that produce flash graphene

• Combination of titanium oxide and vanadium penta-oxide using aerogel method

Electrical and Telecommunications

We have handled cases, among others:

- Apparatus and method of wireless communication
- Apparatus and method of Resource Indication Power Transmission Device
- Communication Method And Apparatus
- Fiber Connector And Communication
- Device Signal Processing Method
- Computer Technologies
- Service Data Processing Method
- Communication Technologies
- Method for processing pictures
- Coding and decoding
- video/image
- Method and apparatus for

Pharmaceutical

We have handled cases, among others:

- Process and tools to detect Diabetes Mellitus Vaccines for different types of coronaviruses Biopharmaceutical formulas
- Use of drugs to treat various diseases of the central nervous system, cancer, and others
- Process of preparing herbal medicines and their use in the treatment of various diseases
- New formulas/compositions for treating cancer (such as: benzamide derivatives) Cosmetic compositions
- Immuno-oncology compositions

Biology/Biotechnology

We have handled cases, among others:

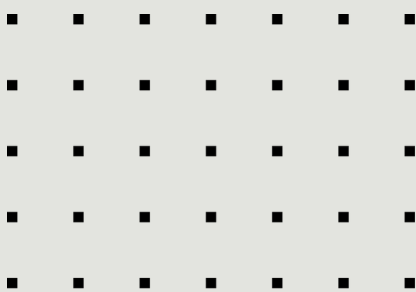

- Biomolecular inventions related to sphingosine phosphate
- Inventions related to genetically modified organisms (GMO – genetic engineering) Proteins/polypeptides and recombinant proteins
- Novel enzymes and inhibitors Complementary
- DNA (cDNA)
- Polynucleotides
- Genes, vectors, transformant and recombinant vectors Use of fungi, algae and plant extracts
- Use of bacterial products Microbiology inventions Monoclonal antibodies

Mechanical

We have handled cases, among others:

- Device and method for handling fragments of a broken needle
- Pipe Diameter Determination Method and Apparatus
- Refrigeration Apparatus
- Coupling
- Device Pulley
- device Baby carrier
- Safety protection device for cars
- Child safety car-seat

Chemistry

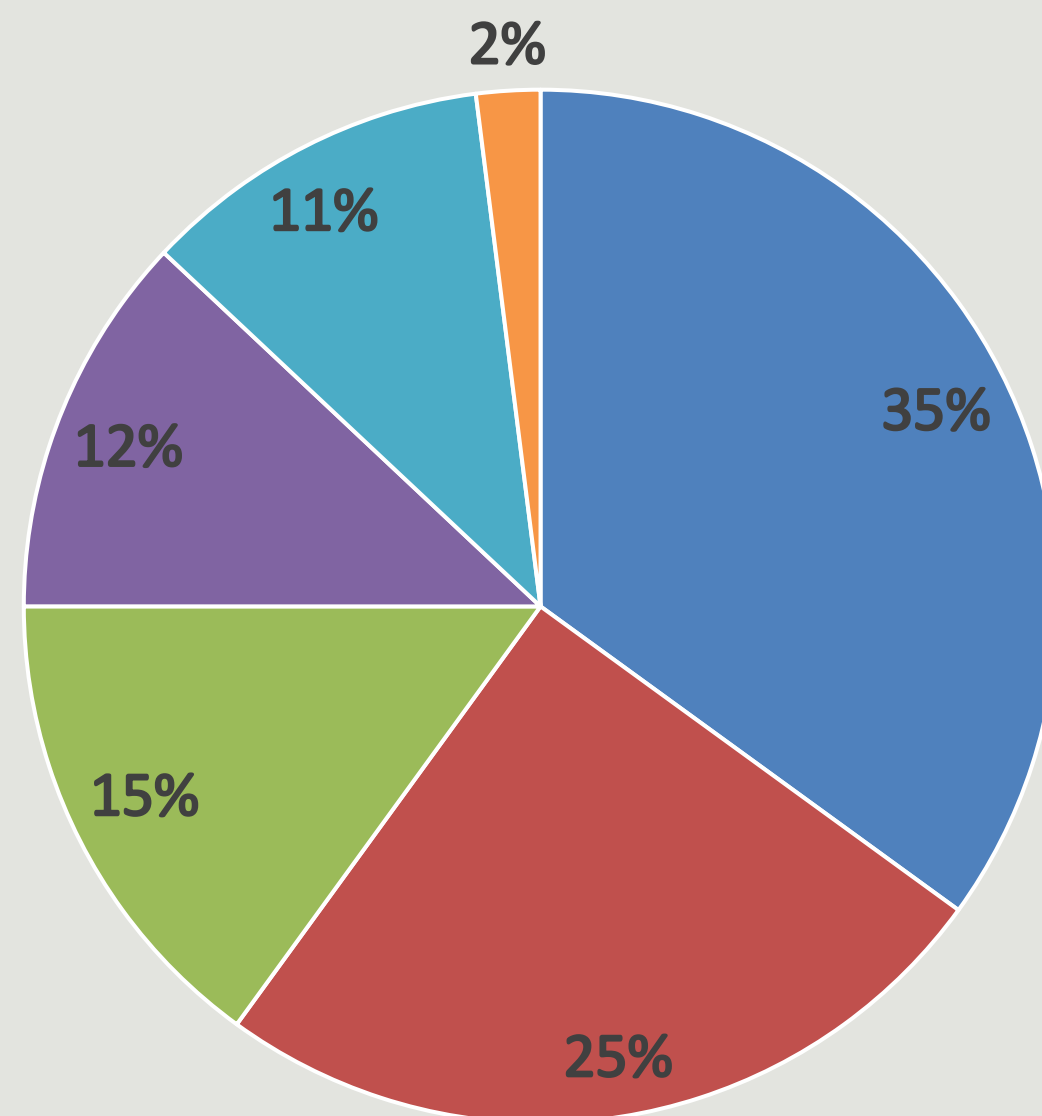

We have handled cases, among others:

- New compositions for chocolate and milk Shampoo compositions
- Surface treatment agents Resin beads
- Coating rubber composition for fiber and marine hose
- Method for controlling ammonia-escape in decarbonization system Process and manufacture of batik and waste management Pesticide and herbicide compositions Fertilizer compositions

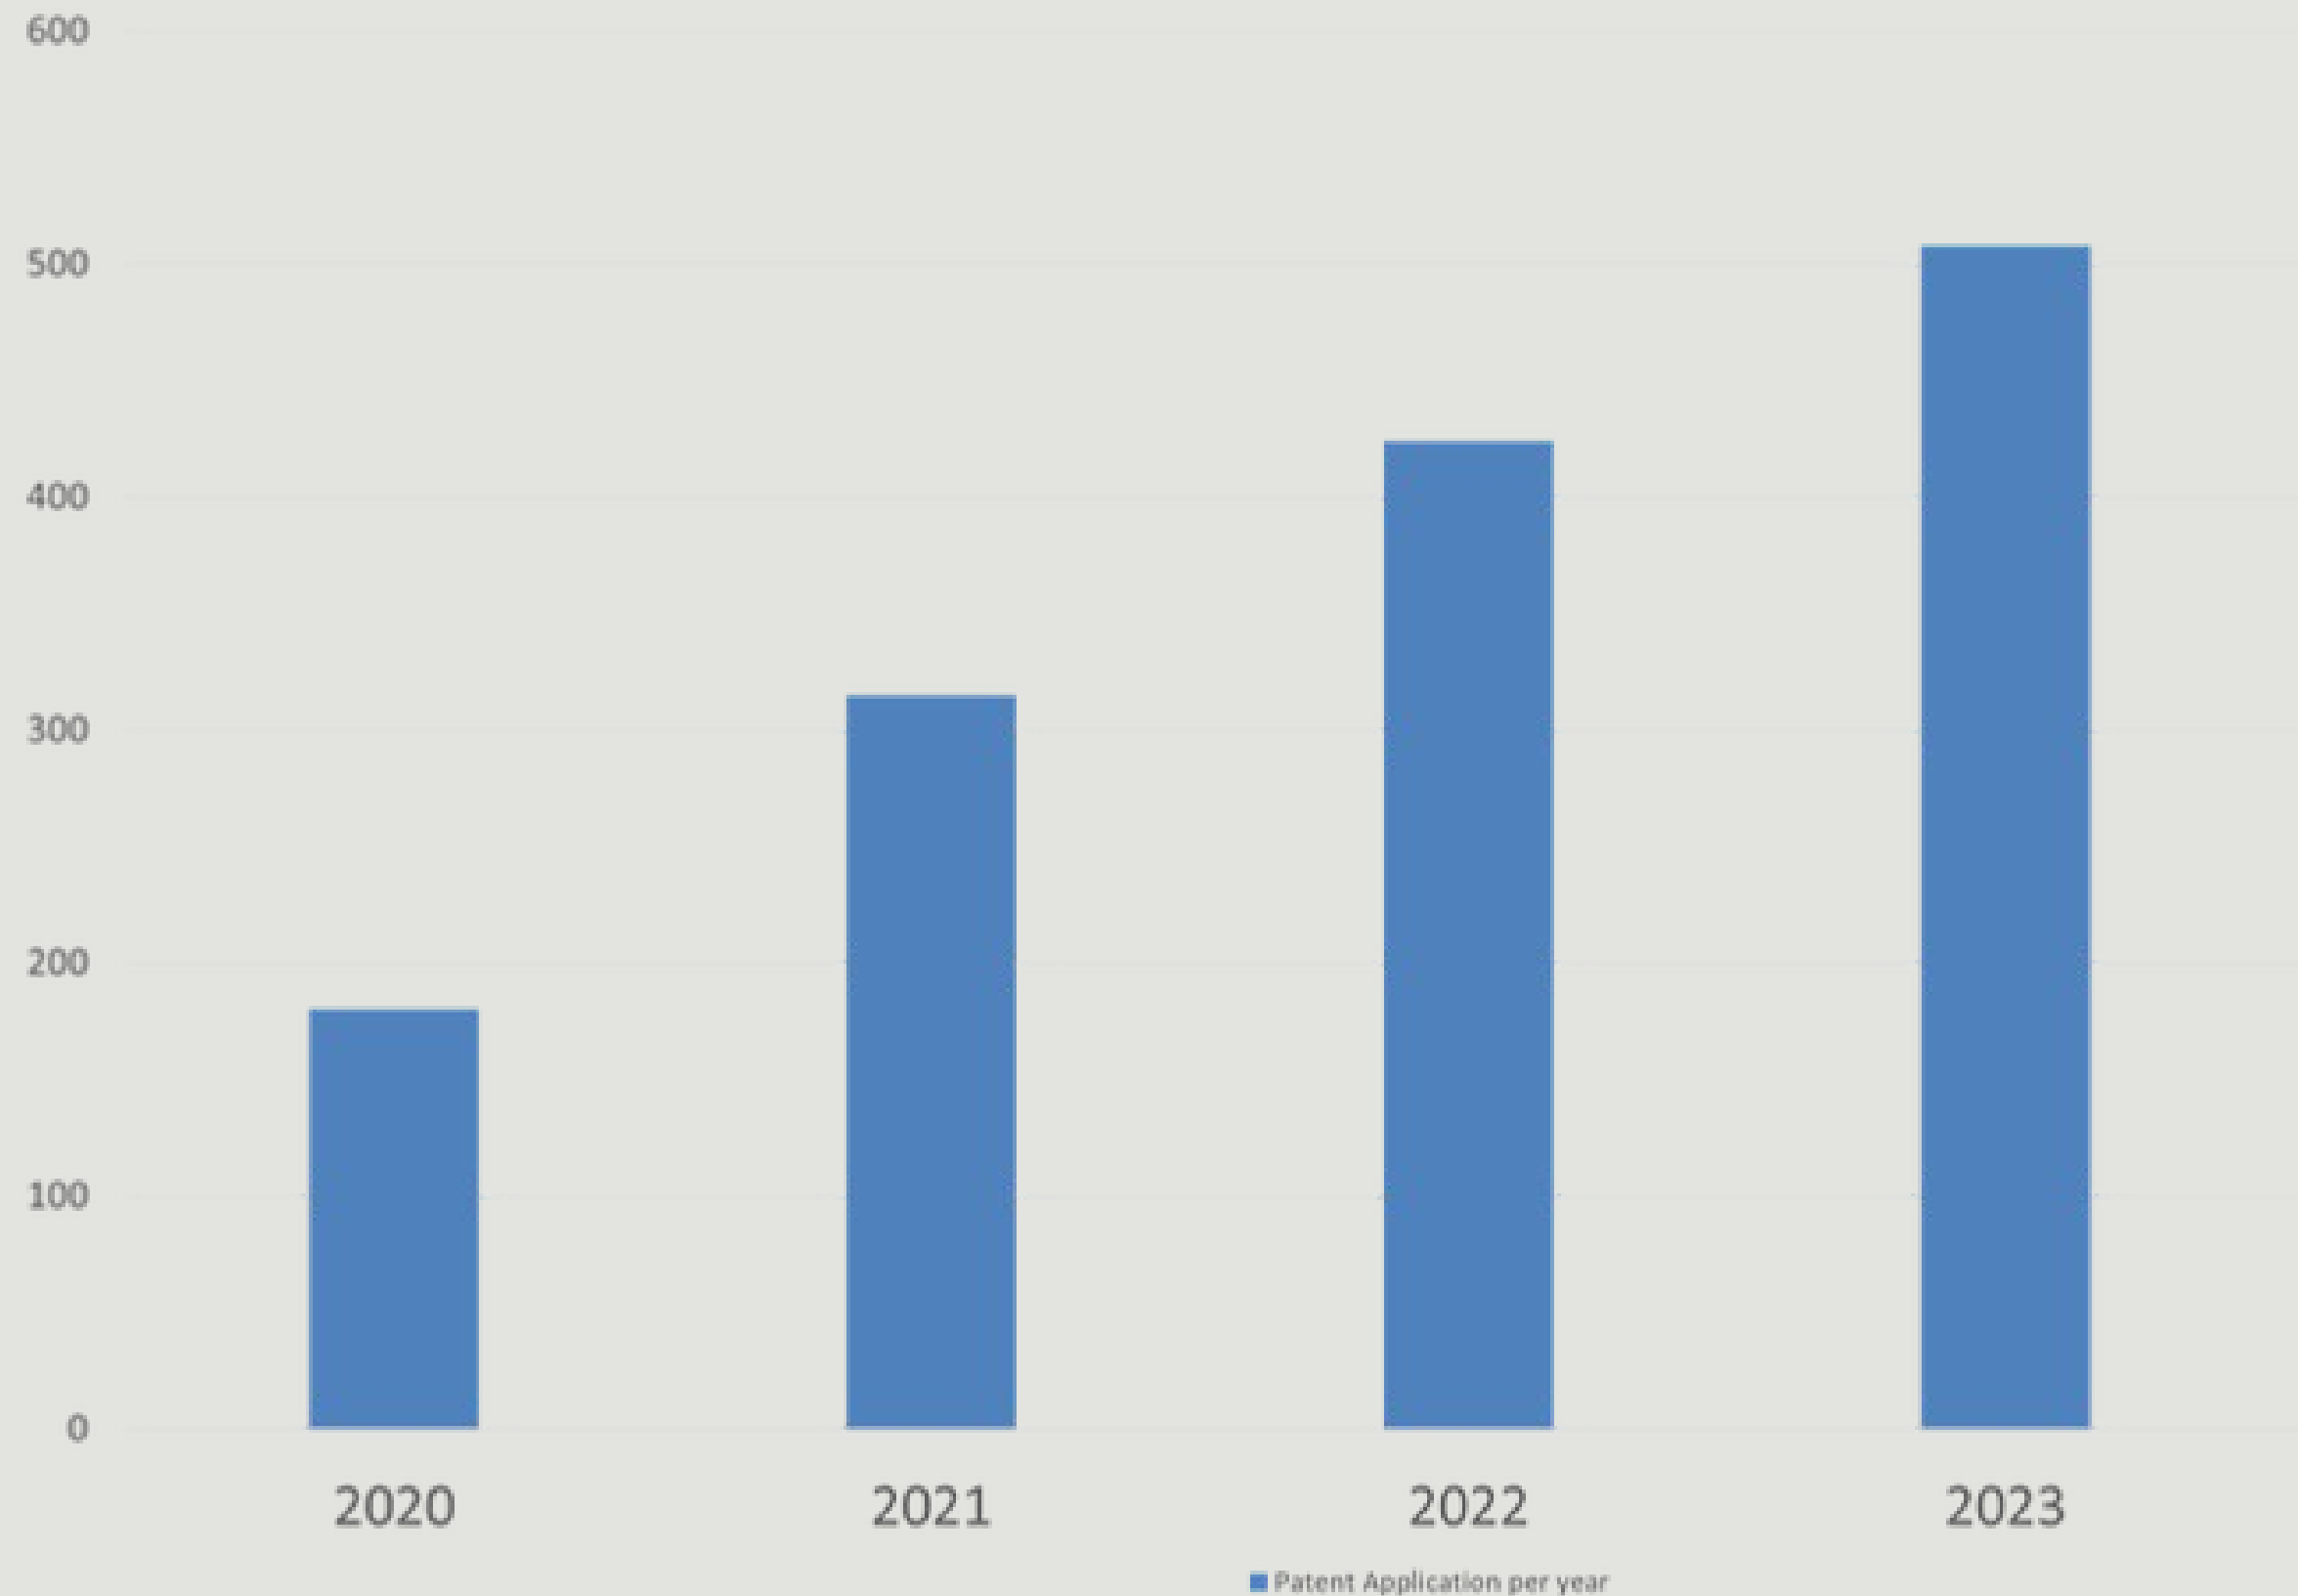

PATENT APPLICATION BASED ON FIELDS

■ Electrical ■ Mechanical ■ Chemistry
■ Biology/Biotechnology ■ Pharmaceutical ■ Others

Patent Applications 2020-2023

Trademark

Services offered by the Trademark Practice Group of AMR Partnership shall include, but not limited to:

- Prosecution of trademark registration at the Indonesian IP Office
- Channeling Indonesian-priority based foreign trademark registration to other Paris Convention member countries
